Signature of the Student

Instructions for Students

1. Students should write answers in blank or ruled paper as available with them. All answers must be neatly handwritten in portrait format and not landscape.
2. A copy of cover page (.doc format) would be provided; students are required to fill in the details and attach it as the first page of their answer sheet. If any student has difficulty in filling in the soft copy of the cover page, she should write the requisite information in a separate sheet maintaining the same format.
3. The students MUST write their Roll number, Page number on the top and put their signature on the top and bottom on each page of the answer sheet failing which it is highly likely that their answer sheets might be untraceable in the large volume of data.
4. Students can scan the answer sheets in a scanner or take image of the individual answer sheets using CamScanner app or any other similar app, in sequence of increasing page number, merge them in a single pdf file and send their answer sheets.
5. Students MUST name the pdf file of the answer sheet as follows: Roll number_Paper code (example: 11011_PHAR504)
6. Students are expected to send their answers-sheets within 24hrs. (1 day on posting the question paper at 8:30a.m.) to the email from which the question paper was sent with a copy to secrecy section as on email ID as instructed or upload it in Google Form. Students are advised to upload answer-sheet early to avoid last minute rush.
7. The students should submit/upload their answer sheet only once.
